

Find it easily with AT&T Navigator.

A low-cost way to get full-featured GPS on an AT&T smartphone.

AT&T Navigator keeps you on track with precise, audible directions and full-color moving maps. Use it for work or on vacation. Save time and headaches trying to find your way. Once you've set it up, operation is hands-free for safety. Just input your destination on your keypad, online or over the phone. AT&T Navigator will guide you step by step.

Compact and convenient.

Select devices have GPS receivers built in. Or just purchase an external Bluetooth® GPS receiver to use with a compatible handset. Then all you need is a subscription to AT&T Navigator and a qualified data plan. You'll be on your way with one low monthly service charge for AT&T Navigator service.

Save valuable time.

Business owners will appreciate the time savings and added customer satisfaction of ensuring that you and your employees get to appointments quickly and efficiently. You'll save on printing out maps, too.

Sign up and try it FREE for 30 days.*

See how easy and stress-free it is. View the demo and a list of available devices at att.com/locationbasedservices, or to get started right away, talk to a sales representative or visit att.com/wirelessbusiness.

*Qualified data plan and device required. See Important Information on following page.

The new  at&t

Whatever you're looking for.

FIND YOUR WAY TO THE MEETING

Get turn-by-turn voice directions and full-color moving maps—right on your AT&T smartphone.

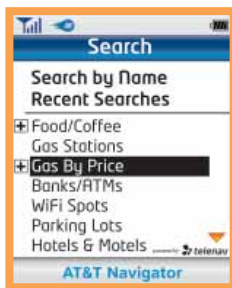

FIND A GREAT RESTAURANT

Search over 10 million business listings by category or name—or just locate your car in the parking lot with Waypoint Finder.

FIND THE NEAREST FUEL

See where you can get the lowest priced gas at a station near you to save time—and money.

AT&T Navigator advanced features:

Choose how you enter addresses.

You can log onto att.com/navigator, use the handset's keypad to enter an address or call a toll-free number. Plus, save your favorite and recent stops.

Set your own preferences.

Want the fastest route or the shortest driving distance? AT&T Navigator lets you set your preferences, including highway or street travel.

Get directions while you walk.

Unlike car-based GPS systems, AT&T Navigator can direct you while you're walking around a city or taking a stroll in the country.

Locate businesses.

Access over 10 million business listings right from your handset. Search by category or business name for restaurants, banks, cafés, hotels and more—anywhere in the U.S.

Know where you've been, too.

Waypoint Finder is a feature that lets you mark your spot and find it later. You may never lose your car in a parking lot again.

How to get started:

- 1 Select a compatible Bluetooth-enabled handset.
- 2 Purchase an external Bluetooth GPS receiver (required for non-GPS devices only).
- 3 Select a data rate plan.
- 4 Select the AT&T Navigator add-on for your account.

30 days free when you sign up.

The AT&T Navigator Unlimited Add-on Plan gives you full-featured GPS for one low monthly service charge.

	ROUTES PER MONTH**	MONTHLY SERVICE CHARGE
AT&T Navigator Add-on	Unlimited	\$9.99

IMPORTANT INFORMATION:

30 Days Free: Limited time offer. When you add AT&T Navigator ("AN") to your data plan, AT&T will waive the applicable AN monthly service charge for the first 30 days. Associated data usage will be charged as specified in your data plan. After the first 30 days, you will be charged the applicable AN monthly service charge unless you cancel AN by contacting Customer Care at 866-246-4852. **AN:** May not be available for purchase in all sales channels or in all areas. Eligible data plan and compatible device with external Bluetooth, or internal GPS receiver, required. Certain data plans (e.g., MEdia Net™) are not eligible. You may cancel the AN at any time. Measured data usage incurred in connection with AN will be charged as specified in your associated data plan. You will be billed for all data usage up to cancellation of AN. AN solution includes location services provided by TeleNav®, Inc. ("TeleNav"). **Coverage:** Most AN features require GPS reception and a wireless data network connection. AN's location services are operative in the United States except for Alaska and parts of Hawaii; however, environmental or other factors may also limit GPS location information. Wireless data coverage is not available in all areas. See applicable coverage map(s). Wireless data coverage is subject to transmission limitations and terrain, system, capacity and other limitations. Availability, speed, timeliness, accuracy and reliability of service are not guaranteed by AT&T. When outside a coverage area, access will be limited to information previously downloaded to or resident on your device. **Miscellaneous:** Using AN allows your GPS hardware to be located by AN for purposes of providing its location services. User interface may vary by device. Some features, such as moving maps, audible directions, supported languages and retrieval from an address book may not be available on all devices. It is your responsibility to drive safely and observe all traffic rules. **Additional Terms:** Additional charges and usage and other restrictions apply. AN is solely responsible for its location services, including without limitation, all location or other information it provides and/or collects and its technical support. AT&T's location services are subject to its applicable terms and conditions, which can be viewed during the AN installation process. Service subject to applicable AT&T service agreement, rate plan brochure(s) and data coverage map(s). See applicable materials for details. AT&T's privacy policy may be viewed at att.com/acceptableusepolicy. Offer subject to change. © 2008 AT&T Intellectual Property. All rights reserved. AT&T and the AT&T logo are trademarks of AT&T Intellectual Property and/or AT&T affiliated companies.

**A route is a set of complete driving directions to get from Point A to Point B including three route re-calculations in the event the driver departs from the planned route within a 24-hour period.
